

MYST SAFETY OPERATING PROCEDURE

CAR CARRYING TRAILER

Please Read below BEFORE Towing Trailer

PRE- JOURNEY SAFETY CHECKS

1. Attach coupling to the ball, & ensure the Handle is in the FULLY DOWN position & the Safety Catch is located over the Lug. Towball size needs to be 50mm
2. Attach Safety Chain
3. Check brakes and all lights before use.
4. If you have brake lights & tail lights working but no indicators, & your base plug on your car is the same as the Trailer, simply turn the lead around & the indicators will work.
5. Know the Towing Capacity of your vehicle & ensure the combined load does not exceed 2T. Our Car Trailers weigh approx 800kg's.
6. Ensure your load is positioned with the majority of the weight forward.
7. Check tyres. Make sure sufficient Tread is visible. It is recommended to also check all tyre pressures. Tyres should be 40psi.
8. Rotate Winch to ensure its operation. Check cable for any frays.
9. Check under Trailer to ensure the Loading Ramps are present.
10. Faulty equipment must not be used. Report any faults immediately on 1300 882 187

OPERATIONAL SAFETY CHECKS

1. Ensure your load is positioned with the majority of the weight forward.
2. Approved straps must be used at all times to secure load at all 4 corners of the load.
3. DO NOT use winch as the only form of load securing, as it is NOT designed to do this, & it is also illegal. DO NOT use winch to unload the vehicle, as is not designed to do this also.
4. Maximum speed allowed is 100 KPH
5. Beware of your space between you & the vehicle in front. Allow more space for unexpected braking & stopping distances. (increase this space even more in the wet)
6. If swaying occurs DO NOT hit the brakes. Slowly decelerate, or where possible accelerate out, to stop swaying. Once the sway is contained, stop & reposition load.

POTENTIAL HAZARDS :

CONTROLS :

<ul style="list-style-type: none"> • MANUAL HANDLING 	<ul style="list-style-type: none"> • BEND KNEES, DO NOT USE BACK
<ul style="list-style-type: none"> • SLIPS, TRIPS & FALLS 	<ul style="list-style-type: none"> • INCREASE SITUATIONAL AWARENESS
<ul style="list-style-type: none"> • ROTATING EQUIPMENT 	<ul style="list-style-type: none"> • OBEY ALL WARNINGS, KEEP CLEAR, SITUATIONAL AWARENESS
